MSCI World Index[1]

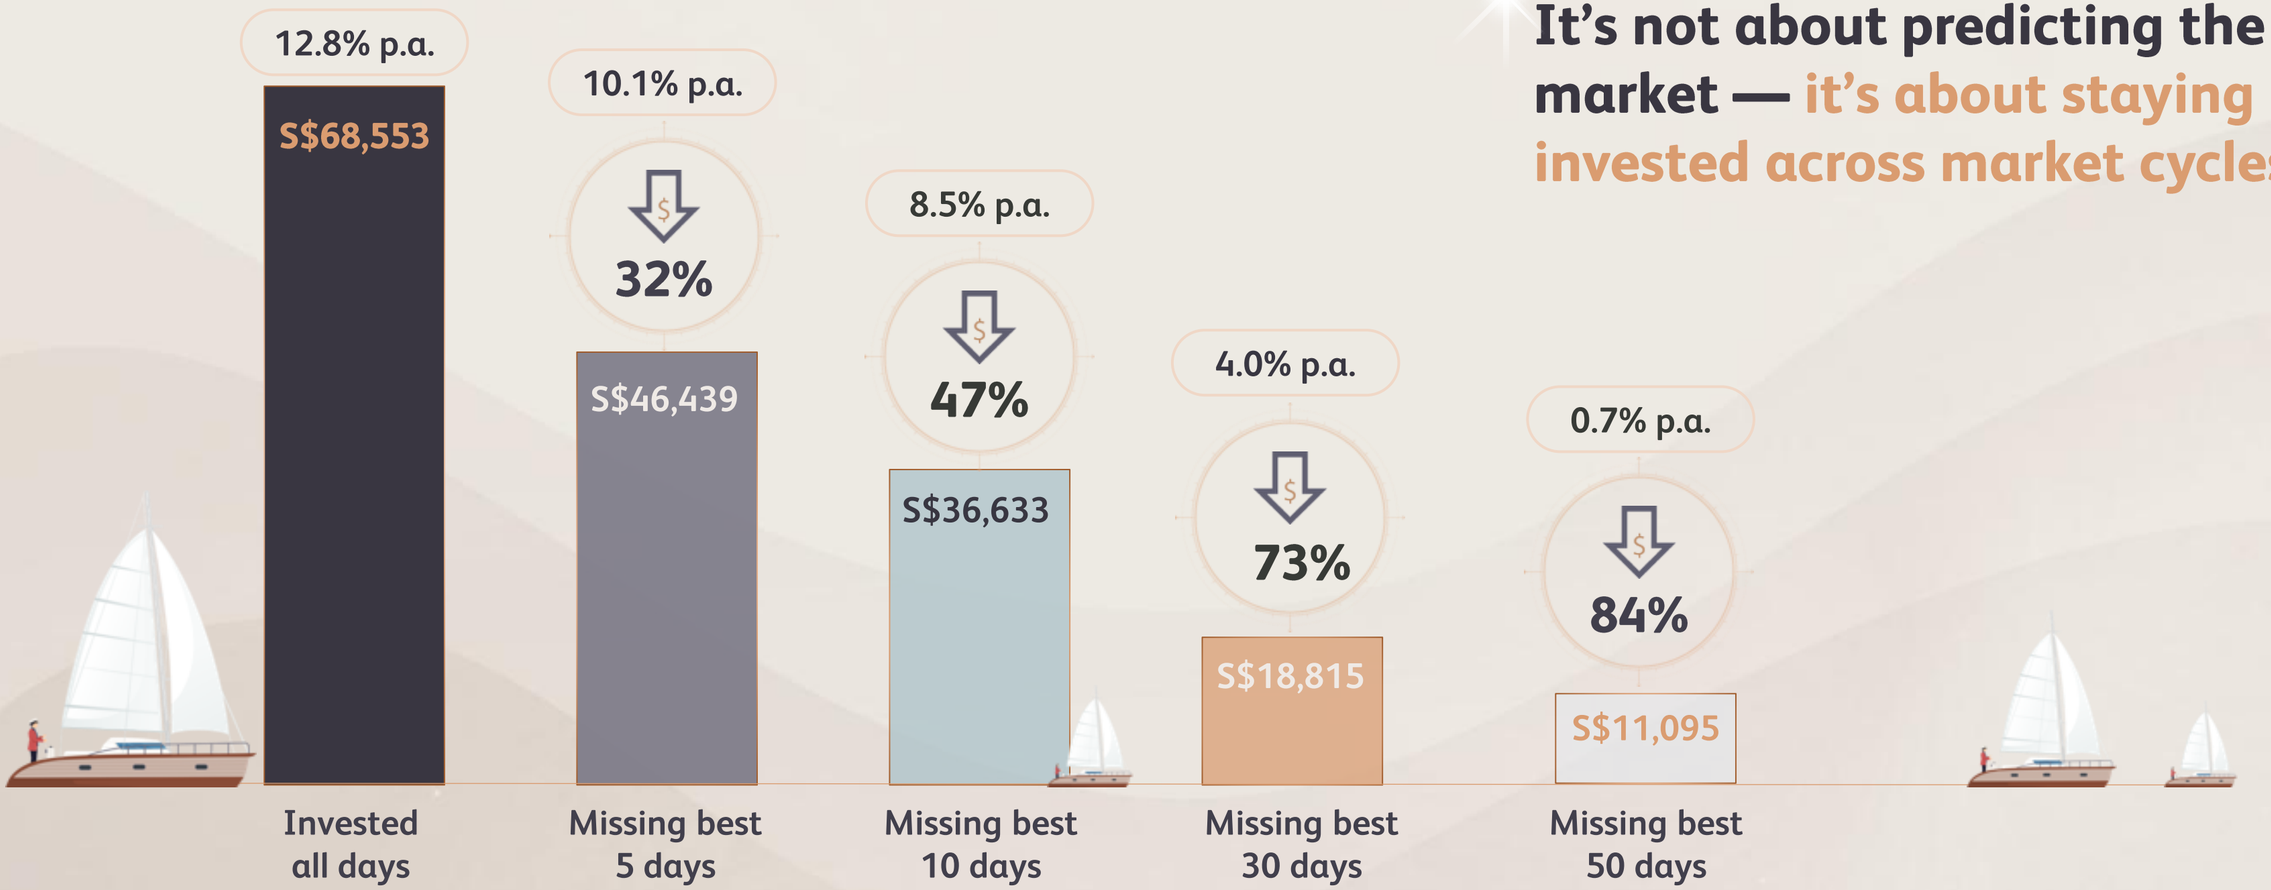

Investors often chase highs and try to avoid lows. The problem with this reactive approach is that more frequent decisions simply increase the risk of poor timing.

A long-term managed approach helps reduce that risk. By keeping investors focused on long-term outcomes, it may minimise emotional decisions and increase the likelihood of sustained growth over time.

Two ways to chart your course

The Growth Path

Premium Term: 10 years | 15 years | 20 years

FOR INVESTORS WHO PRIORITISE

Building long term wealth
Grow your wealth over time with market linked returns and protect it from life's what ifs.

Saving for important milestones
A child's university, a second home, a planned retirement – invest with intent.

A life that flexes
Career changes, family changes, market shifts and the freedom to move with them.

The Income Path

Premium Term: 3 years | 5 years

FOR INVESTORS WHO PRIORITISE

Income for retirement
Monthly payments[1] to sustain the life you've planned.

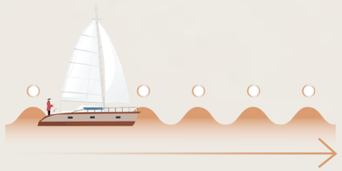

Additional income while you work
Supplement today's cashflow[1], while earning with no additional time commitment.

Income now, legacy later
Wealth to leave behind, with income[1] along the way.

[1] Dividends are not guaranteed and is based on distribution rate and frequency of the chosen **PRU**Link Fund(s), at the discretion of the underlying fund's Board of Directors, Manager and/or Prudential Singapore. The distribution of dividends may be effectively paid out of capital, which will reduce the net asset value of the fund which is used to calculate the fund's unit price and the surrender value of the policy. Positive distribution yield does not imply positive return.

Structure your wealth for continuity across generations

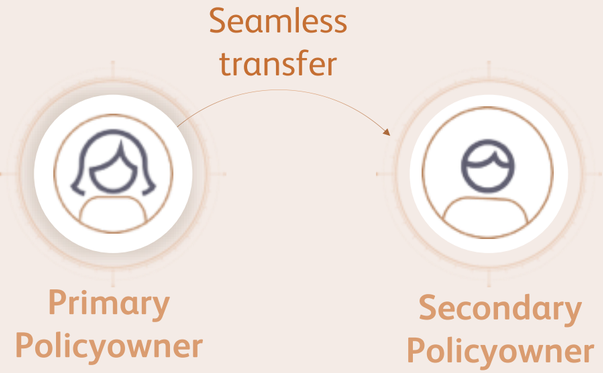

Wealth Share[1]

Split your policy into sub-policies and allocate each to a loved one, with every sub-policy growing independently to help support their future.

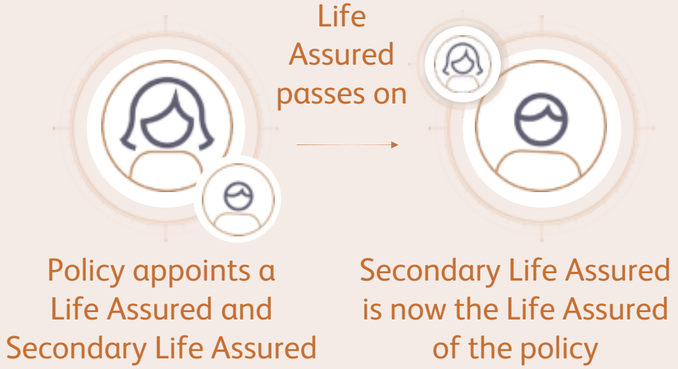

Secondary Policyowner[2]

Ensure a seamless transfer of policy ownership after your passing, avoiding probate delays and reducing uncertainty.

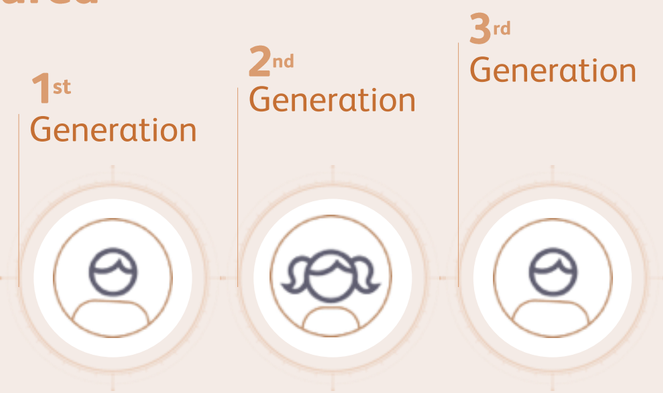

Secondary Life Assured[3]

If the Life Assured passes on unexpectedly, the policy remains in force under a Secondary Life Assured, keeping your wealth invested without disruption.

Change of Life Assured[2,4]

Designating a next-generation Life Assured allows the policy to extend longer, giving your wealth more time to grow.

[1] Only applicable for 130 years from first premium due date of original policy and after premium term or administration charge period. | [2] Only allowed after two years from policy inception. | [3] subject to insurable interest between the new secondary life assured and the original policyowner(s). | [4] Change of life assured is subject to insurable interest with current policyowner(s) and acceptance by Prudential.

A single plan that evolves with life's changing needs

- Compound wealth while flexible withdrawing
- Support his life amid uncertainties while growing his wealth
- Create a monthly income stream
- Built to grow wealth and generate income

You are recommended to read the Product Summary, Fund Information Booklet and Product Highlights Sheet(s) and seek advice from a qualified Prudential Financial Representative for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

PRUVantage Wealth III (SGD) is an Investment-Linked Plan (ILP) which invests in ILP sub-fund(s). Investment products are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units and the income accruing to the units (if any) may fall or rise. Past performance is not necessarily indicative of future performance.

The Fund(s) is an investment-linked policy ("ILP") sub-fund issued by Prudential and Prudential is the product provider.

If you choose an ILP sub-fund that aims to distribute dividends on a regular basis, please note that the distribution of dividends are at the discretion of the underlying fund's Board of Directors, Manager and/or Prudential Singapore, and is not guaranteed. The distribution of dividends may be effectively paid out of capital, which will reduce the net asset value of the fund which is used to calculate the fund's unit price and the surrender value of the policy. Positive distribution yield does not imply positive return.

It should not be construed as an offer or solicitation for the subscription, purchase or sale of the names mentioned herein.

There is no assurance that any securities/funds discussed herein will remain in the portfolio of the ILP sub-fund(s) at the time you receive this material or that securities sold have been repurchased.

The securities/funds discussed do not represent the ILP sub-fund's entire portfolio and in the aggregate may represent only a small percentage of the ILP sub-fund's portfolio holdings.

Investments are subject to investments risks including the possible loss of the principal amount invested. The prediction, projection or forecast on the economy, securities markets or the economic trends of the markets targeted by the ILP sub-fund(s) are not necessarily indicative of the future or likely performance of the ILP sub-fund(s). The past performance of the Manager or Investment Manager and the Fund is not necessarily indicative of its future performance.
